HUBERTUS HOFFMANN

ARTIST STATEMENT

Hubertus Hoffmann and Tom Lemke The Champions & the Art of Tolerance Project presents portraits of well-known people and the unsung, hidden champions from different cultures around the world. The first you may find here - more are to join later. Photos, videos and quotes, along with individual stories, demonstrate that a better world with more tolerance and respect is possible. All over the globe. Step by step. With courage and strong individual engagement. There are beacons of humanity on our planet who long to share their developed art of tolerance with us. From every corner of the earth they say: Wake up! Join us, promoting tolerance with your small steps, and the world will be as one! The Portraits The Champions of Tolerance are shown in their working environments, moving naturally and without posing. The photos were not taken during sterile sessions, but spontaneously.
