### ARTIST STATEMENT

In my paintings I react to what I see, think and feel. I am a painter and have been managing a specialist optician store in Berlin, Prenzlauer Berg for 15 years. My studio is integrated right into the store, as "Painting means learning to see“, for me. I decided to start showing my paintings in public in 2014, since then I have had the great honor to exhibit together with well-known artists. In 2015 I co-founded the artist community "FO YOU“. Since then I organize and curate large exhibitions on a regular basis, as well as continue to paint.
