ARTIST STATEMENT

Michela Picchi is an Italian cross-disciplinary artist born in Rome on 5 August 1987 and currently living in Berlin. After graduating in Law and Economics first and later in Graphic Design, she moved to Hong Kong, where she was able to explore, experiment and develop her own distinctive style. Michela's strong vision is built upon multidisciplinarity and her ability to work with different artistic field. Thanks to a remarkable color palette, her art dives into pop, surrealism and psychedelic tigers themes, giving her works an intense vibrant and pop twist clearly tangible in her numerous recent murals, both public and private. With her constant experimental approach, she focuses on how perceptual experiences are linked to visions and how this relation can be transferred into artworks. **Website**
