ARTIST STATEMENT

Guillermo S. Quintana b. 1983, Mexico Amanda Arrou-tea b. 1990, Spain Guillermo S. Quintana and Amanda Arrou-tea are an artistic duo who have been working together for the last 4 years. Coming from very different artistic backgrounds, Quintana studied communications and then decided to change his career path, creating an art gallery called *Galería 904* in Mexico 5 years ago, whereas Arrou-tea completed a degree in fine arts. Their personal work is very different from each other (they work through very separate art theories and techniques) when they combine their skills they create unexpected outcomes, creating something fresh and new. Both artists adapted themselves to each other's techniques of Tape Art, muralism, installation and painting, and have created works together in Mexico, Spain, England, Thailand, Italy and all over Germany.
