

ENTER ART FOUNDATION

EPICENTER STOCKHOLM PRESENTS:

ENTER ART FOUNDATION at STOCKHOLM ART WEEK 2018

Short Description:

ENTER ART FOUNDATION is a young, Berlin based non-profit organization with the mission to support artists while building a unique collection of art. Funded through donations and grants, the project offers the opportunity for artists to connect with gallerists, collectors and art lovers through group exhibitions. Selected artists are invited to show and sell their works and can keep 100% of their sales. After its debut in Basel in June, 2016, EAF has now shown and supported more than 230 artists in seven major exhibitions in Berlin, Basel and Rovinj (Croatia) with more than 50.000 visitors and 180 sales. EAF does not highlight single artists. We invite visitors to form their individual opinions.

SAT 14.04. 14:00 - 22:00
SUN 15.04. 14:00 - 22:00

ENTER ART FOUNDATION

Exhibition Info:

The ENTER ART FOUNDATION is pleased to announce its eighth pop-up exhibition featuring 25 emerging and mid-career artists, taking place in the heart of downtown Stockholm, Sweden. EAF is proud to participate in the Stockholm Art Week as our second exhibition abroad since Basel, Switzerland. After numerous successful exhibitions in Berlin, Enter Art Foundation is excited to go further afield and to explore the growing art scene in Stockholm.

We see Stockholm as an exciting opportunity to go on a new journey of discovery. The buzz in the small but concentrated art world of Stockholm is infectious and the enthusiasm about our project from artists and other working in the art world is thrilling. It has been very enjoyable to put together a show here.

Typical for EAF is the wide range of techniques and styles we present in one cohesive exhibition. Our Stockholm exhibition will continue this approach by including examples of photography, painting, sculpture, drawing, watercolor and collage.

Before every exhibition, we spend time scouring exhibitions, galleries and the internet for new artists. Stockholm has been no exception, as we travelled to artist's studios, private homes and galleries to meet with them and see their artwork in person. The final result is a cross section of emerging Swedish artists, varying in age and experience, yet all inspiring us with their fresh artistic vision. Alongside artists from Sweden, art enthusiasts will have the opportunity to view works by artists from Columbia, Brazil, the United States, and of course Berlin. Visitors will encounter some familiar names from Sweden, but also have a chance to discover artists whose work has never been displayed in this country.

Details on Special Event:

EAF is having on all days various artist talks and a curatorial walk through with artists.
